

TO WHOM SO EVER IT MAY CONCERN

This is to certify that the structural design and drawing, for the construction of "PROPOSED OF SCHOOL BUILDINGS FOR MAHARISHI VIDHY MANDIR AT GORAKHPUR, has been carried out by our Structural Consultant Associate Structural Designer Er. P.K. Jain, who is a M.Tech (Hons.) and Chartered Engineer. The design of the building is done considering all structural design norms, i.e., Seismic Zone- of that area and all relevant Indian IS: code. The design criteria and concept has been considered as per the soil test report provided. All the structural elements of the Proposed School Building i.e., footing, plinth beam, column, floor beam, roof size and their reinforcements detailing has been well considered by the structural consultant.
